

A GREAT PLACE TO WORK

Insurance Commission of Western Australia

ABOUT US

There are two specific Insurance Divisions within the Insurance Commission:

The Motor Vehicle Personal Injury Division (MVPI) manages the Compulsory Third Party (Personal Injury) Insurance Scheme in Western Australia and manages all personal injury claims made by persons injured in or by Western Australian registered motor vehicles.

The RiskCover Division ensures the effective management of the State Government's self-insurance arrangements and claims, facilitating the implementation of risk management practices within State Government agencies, and managing the Compensation (Industrial Diseases) Fund and Community Insurance Fund.

Each Division is supported by the six Service Divisions: Investments, Finance & Administration, Human Resources, Information Technology, Special Investigations and Commission Executive.

We directly employ approximately 360 West Australians.

OUR VISION

Our vision is to be recognised by the community as the leader in the responsible management of risk and the delivery of equitable compensation schemes.
