Ellenbrook Bulky Goods Precinct Underway

The Insurance Commission of Western Australia (ICWA) today announces that construction of the bulky goods development at The Shops At Ellenbrook is underway.

The Chief Executive of ICWA, Rod Whithear said he was delighted to see construction commence following the announcement on 26 May 2015 that we would be establishing the bulky goods precinct.

“We can also advise that Pindan is the builder of the new retail facility for Ellenbrook”, said Mr Whithear.

“Pindan have already broken ground on the site, poured the slab and the community will be able to watch the tilt-up walls go up in the coming weeks”.

“We anticipate the first store in the precinct will open in the second quarter of next year, with other tenants to follow shortly afterwards”.

This further development of The Shops At Ellenbrook is another achievement for the area and follows the recent naming of Ellenbrook as the World Gold Winner of the International Real Estate Federation Excellence Awards 2015 in the Master Plan Category.

The development of the bulky goods precinct will also increase the value of The Shops At Ellenbrook.
