Notes : These figures are for any person deemed partly or wholly liable for the crash, where determined. Liability is only determined if a personal injury claim ensues, so these figures only relate to crashes involving a claim.

There may be cases of multiple liability (e.g two drivers, each 50% liable) included in the above.

"Unspecified Age" includes untraced drivers involved in a hit & run crash.

Ages shown are at the time of the crash.

Year indicates the CALENDAR year in which the crash occurred.

For the latest year, the figures are up to 30/11/2018.
