News and Publications

[Home](#) / [News and Publications](#) / **Statistics**

We pay hundreds of millions in claims costs to thousands of injured people each year. This creates significant amounts of data. We use this data to analyse claims trends to help set insurance premiums for future years.

To help people identify the cause and cost of crashes and workplace injuries, and hopefully prevent these, we publish a range of statistics on our activities. If you are looking for information that is not found here, [please let us know](#).

Motor Vehicle Statistics

Crashes

+ Number of crashes reported by location

+ Number of crashes reported by time of day

Number of Personal Injury Claims Received

Number of Crashes Attended by an Ambulance

Number of Crash-Related Hospital Bed Days

Number of Crash-Related Fatalities

Gender of Liable Person in a Crash

Age of Liable Person in a Crash

Costs

Crash-Related Costs
